

Amanda Kay Colby, P.E., C.D.T., LEED Green Associate
Electrical Engineer

Education

Oklahoma State University
Bachelor of Science,
Electrical Engineering
2007

Professional Registration
Oklahoma

Years of Experience
6

Mrs. Colby graduated as Valedictorian at Memorial High School, Tulsa, and from Oklahoma State University with her Electrical Engineering degree in December of 2007. She joined Engineering Design Associates less than a week later. Since then she has worked on both large and small commercial, institutional and multi-family residential projects. She became a certified Construction Documents Technologist (CDT) through the Construction Specifications Institute (CSI) in April of 2011. In December of 2012, Mrs. Colby obtained her Professional Engineering licensure. In January of 2014, she obtained her LEED Green Associate credential.
